

**More Technology**

Engines feature advanced technology to meet your power demand.

**More Reliability**

Engines are manufactured to industry leading precise tolerances to assure optimum performance.

**More Economy**

The Direct Injection combustion System of KAMA makes its combustion room combine its injection system perfectly. Therefore the cost of fuel is decreased greatly.

**More Powerful**

KAMA engine is designed for the commercial lawn & garden, industrial, rental and construction markets where grueling hours are the norm.

**More Quiet**

The total noise-proof device of generator set makes it welcome in any location, especially at night.

**More Environment Friendly**

KAMA Co. is committed to the preservation of a healthy environment. The KAMA engine division has set strict standards for fuel efficiency and emission control. That's why each and every engine featured here complies with strict European I emission standards without less of horsepower or torque.

**Kama Quality**

KAMA Co. is one the largest state-owned mechanical companies in China. Since 1998, KAMA Co. has pioneered the design and manufacture of generator sets; pump products and technologically advanced engines. Today, over 5000 employees continue to craft these products to help people the world over.

**Environmental Commitment**

KAMA Co. is committed to the preservation of a healthy environment. The KAMA Engine Division has set strict standards for fuel efficiency and emission control. That's why each and every engine featured here complies with strict emission standards without less of horsepower or torque.

**Performance, Durability, Reliability**

When it comes to horsepower, load-lugging torque, and long life, nothing compares to KAMA's family of KG series, KM series, KM376 series and KM183 engines. KAMA engines are the planned result of state-of-the-art CAD/CAM design and development, precision manufacturing, and rigorous testing for heat, cold, vibration, sound and exhaust.

***Gold Coast Power, Inc.***

Worldwide Distribution of  
"New Factory Warranted"  
Rebuilt & Used Diesel Engines,  
Generators, Power Units, Transmissions,  
Torque Converters, etc.

P.O. Box 2187  
Fort Lauderdale, Florida 33303
